“Group Interests” #5

- The P&G Settlement (2013-2021): Job applications denied based on “response to immigration related questions” (i.e. potential extra factor)
 - Me - applied to research dev./image analysis position in late 2016, hence getting a notice this year for validation etc.
- McLetchie and Riggio: In book *Educating Deaf Children in a Multicultural World* (Christensen et al., 2017, Ch.12), it is suggested that
 - Cultural and Societal Attitudes
 - Uniqueness/Complexity of Combined Vision-and-Hearing Losses
 - Additionally, Low- and Middle-Income Societies, Scarce Resources)
 had made Deafblind children became “at high risk” for exclusion from education and society. A meaningful and quality education for Deafblind would consist of **families + paraprofessionals + professional teachers** , for their educational growth & social development.
- “Children require guidance and sympathy far more than instruction.”
 - Anne Sullivan, American Teacher
